

A GLASS-INDUSTRY FIRST FOR ANNEALING & DECORATING LEHRS*

GO HYBRID

Gas when you need it. Electric when it makes sense.

Switch intelligently between gas and electricity - according to heat demand and your energy strategy.

TWO WAYS TO GO HYBRID

NEW

HYBRID LEHR

- We supply complete new annealing or decorating lehrs with a **full hybrid system**.

RETROFIT

EXISTING LEHR

- Convert an existing gas-fired lehr to a **hybrid** version with **ConveX E**.
- Convert an existing electric-heated lehr to a **hybrid** version with **ConveX G**.

CONTACT US FOR MORE INFORMATION

Let us discuss your new hybrid lehr or retrofit project.
